

GoCoin and Paycoin Partner to Offer Altcoin to over 10,000 Merchants

SANTA MONICA, CA and BLOOMFIELD, CT - December XX, 2014 - [GoCoin](#) LLC today announced support for Paycoin™, the new digital currency developed by pioneering cryptocurrency mining hardware manufacturer [GAW Miners](#) to facilitate mass adoption and long-term price stability of cryptocurrency. GoCoin, one of the largest is the first payment solution empowering over 10,000 merchants to accept both bitcoin and emerging digital currencies at checkout.

With this partnership, miners and holders of Paycoin will have unprecedented access to merchants around the world that can accept the new currency for goods and services. As of January 2nd when the coin is readily available, over 10,000 merchants from [insert number of types of lines of business] will sell their merchandise and services to all paying in Paycoin. By creating a crypto currency with well established partnerships, Paycoin will enjoy a stability that other crypto currencies have lacked at their inception.

[Paycoin](#) ICO'd in November and is positioned the crypto currency of the future. Developed by GAW Miners, Paycoin addresses all of the inherent shortcomings that have prevented Bitcoin from achieving mainstream adoption. PayCoin improves upon existing coins by producing a decentralized network structured to promote price stability, fast transaction times, and rich features for achieving widespread consumer and merchant adoption.

Furthermore, GoCoin reduces market volatility concerns by insulating merchants from cryptocurrency's price fluctuations during the payment process. Merchants can opt to keep the selected coin or automatically exchange all or part of it for fiat. They simply accept the direct deposit to a bank account or digital wallet, and GoCoin assumes any potential risk.

"The partnership between PayCoin and GoCoin is integral for the mass adoption of crypto currency. By establishing this relationship now, we give our clients and merchants the ability to use their new currency right out of the gate," said Josh Garza, CEO and founder of GAW Miners. "This expansion and relationship with GoCoin, a company that conducts 2.5 million transactions annually, brings much needed stability and adoption of the crypto currency to not only consumers, but to merchants as well. Let's remember that this brings new avenues of much needed revenue to both small and large merchants."
