1L4nsyeGCtKnKTr6ikTNGe8tAiEvZcVaTS

Or to Banistmo, savings account: 01-1632123-4

Hi there,

Welcome to the first conference of CryptoWorld in Panama city.

If you are reading this, it is because you have been referred by one of our members or you make part of panama's local community of crypto enthusiasts. This invitation is for a private conference with limit of 40 seats.

Without further due, let me introduce myself.

I'm Johan Castellanos, CEO of Say Shannon S.A. a food tech company that is soon to become a leader of robotics in the restaurant industry in Latin America. I'm also the founder of a private Crypto-chat in Telegram named CryptoWorld which has 138 members and which you will get access to at the conference.

Conference

In this conference you will have the opportunity to hear 5 different speakers who truly believe in empowering the individual with knowledge and tools to navigate this always evolving and complex market. At the event, you will get the opportunity to learn different subjects from economics and business theory, to trading strategies and security practices that will allow you to have sovereignty and be better equipped in a world which constantly struggles with centralization of power.

As speakers of the conference, we believe our duty is to seek truth and to share this truth with those who care about their future. A world of constant noise and misinformation is in dire need of a louder ***signal***.

Q&A

Why such a small group of people?

This conference is intended to be small. The reason being is to provide a more personal experience where you will have the chance to network and interact with the speakers. Also, this conference is mainly intended for those who have or want to have *skin in the game*.

What is the purpose of this conference?

- Due to the solicitation of many of our CryptoWorld members to host an official meeting, we decided to host an event to allow the community members and followers to finally meet face to face.

- Also, we believe is a good time to open our doors to new members in Panama city.

What do you get from this conference?

- You will become part of our group and have ***lifetime access to our crypto signals*** (New members are only allowed in the group through referrals.)
- You will learn about our different bullish thesis on bitcoin, economics and business cases for crypto projects
- Learn about the real bitcoin (TRB)
- Latest trading strategies for crypto
- Cyber security and strategies to have sovereignty over your assets

*Cryptocurrencies are the beginning of the end of the **debt based fiat system**. Those who continually believe in the mainstream media are doomed to be punished by the fruits of their failed system. This conference is just another way to fight that revolution that will never be televised.*

Day 1 - Feb 13th

Schedule	Subject	Speaker
9:30 - 10:30 am	How Economics & Information Theory will propel bitcoin?	Johan/Tyler (@bastiandurden)
10:30 - 10:45 am	Coffee Break
